

Lakeer Ai Clone Guide

Interactive Guide to Creating AI Avatars

What This Guide Covers

This guide shows you a simple and ethical way to create a photoreal AI avatar using:

- A high-quality photo
- A short voice sample (15–20 seconds)
- Tools like HeyGen, ElevenLabs, and any image enhancer

Important: Never clone or recreate anyone without clear consent. This workflow is strictly for ethical, lawful, and transparent use.

What You'll Need

- A clear, high-resolution photo (with consent)
- A 15–20 second clean audio sample (with consent)
- Accounts on:
 - HeyGen
 - ElevenLabs (optional)
 - Image enhancer (MidJourney / Photoshop AI / similar)
- A script for your avatar

Quick Workflow

1. Enhance your photo
2. Record a clean audio sample
3. Upload photo in HeyGen (Photo Avatar)
4. Create a custom voice
5. Add script → Render

Step-by-Step Guide

Step 1 — Photo Selection & Enhancement

- Choose a clear headshot with good lighting and a neutral background
- Enhance using MidJourney, Photoshop AI, or any tool (keep it natural)
- Export as PNG or high-quality JPG

Tip: You can also create a stylized version, but keep one photoreal version.

Step 2 — Record a Clean Audio Sample

- Record in a quiet room
- Keep the voice clear and consistent
- Duration: 15–20 seconds
- Save as WAV or high-quality MP3

Reminder: Only use audio with full consent.

Step 3 — Create a Custom Voice

- Go to HeyGen or ElevenLabs
- Use “Custom Voice” / “Voice Lab”
- Upload your audio sample
- Follow setup steps

Use only for ethical purposes like content creation or accessibility. Avoid impersonation or misuse.

Step 4 — Create a Photo Avatar in HeyGen

6. Go to Create → Photo Avatar
7. Upload your enhanced photo
8. Select your custom voice
9. Paste your script
10. Adjust timing, expressions, and pauses

Pro Tip: Test 2–3 script variations to find the best result.

Step 5 — Render, Review & Label

- Render your video
- Review it completely

Add a transparency note: *“This video uses an AI-generated avatar and a consent-based synthetic voice.”*

Creative Tips

- Try different tones: friendly, professional, energetic
- Keep scripts short and engaging
- Add captions for better reach
- Use simple motion backgrounds for social content

Ethical Checklist

- ✓ You have written consent
- ✓ Your use is legal and non-deceptive
- ✓ You clearly disclose AI usage

If you don't have consent — do not proceed.

Final Note

Create responsibly, experiment freely, and always put consent first.
